Oil Painting by De Scott Evans
Still Life: Medical Subject

De Scott Evans was a prolific, nationally known painter of portraits, rural scenes and still lifes. He opened a studio in Cleveland in 1874, and was a founding member of the Cleveland Art Club in 1876. Evans moved to New York City in 1887 where he presented his work at the National Academy of Design. He continued to show his work in Cleveland. Evans painted this still life, which hangs in the Dittrick Museum, for Dr. H.C. Brainerd in 1876.

Der Arzt by Ivo Saliger (dimensions: 73 cm x 53.4 cm.) from the Dittrick Print Collection
FORTHCOMING IN JUNE 2009

John W. Thompson
Psychiatrist in the Shadow of the Holocaust
Paul Weindling
This is the biography of a doctor whose revulsion at Nazi human experiments prompted him to seek a humane basis for physician-patient relations. As a military scientific intelligence officer in 1945, Thompson was the first to name “medical war crimes” as a special category for prosecution. His investigations laid the groundwork for the Nuremberg Medical Trials, and for the novel idea of “informed consent.” Yet, Thompson has remained little-known figure, despite his many scientific, literary, and religious connections.

Dissection
Photographs of a Rite of Passage in American Medicine 1880-1930

By John Harley Warner and James M. Edmonson

This is the most extraordinary book I have ever seen. It documents—in archival photographs and informed, approachable prose—a heretofore almost entirely unknown genre, the dissection photograph.
—MARY ROACH, author of Stiff and Bonk
