

The
AMERICAN ASSOCIATION OF
THE HISTORY OF MEDICINE

SEMI-ANNUAL MEETING

October 24-25, 1941

Under the auspices of the Quivira Medical History Club
Kansas City, Kansas

Information

The meetings are held in the rooms of the Department of Medical History in the Hixon Laboratory for Medical Research, on the campus of the Medical Department, University of Kansas, 39th and Rainbow Boulevard, Kansas City, Kansas. It may be well to mention Rosedale as well as Kansas City, Kansas, in giving instructions to taxi drivers or asking the direction.

The banquet, Friday evening, October 24th, is held at the University Club, Kansas City, Missouri, on Baltimore Avenue between 9th and 10th Streets.

The Quivira Medical History Club is composed of physicians and scientists in Western Missouri and Kansas. They would welcome membership from Oklahoma, Nebraska and Iowa—all the territory included in the Indian designation of the land sought by Coronado.

Please address all communications concerning the Semi-Annual Meeting, October, 1941, to:

DR. LOGAN CLENDENING
1247 WEST 56TH STREET, KANSAS CITY, MISSOURI
