51st Annual Meeting

Kansas City
May 10-13, 1978

THE COVER

The 51st annual meeting of the Association celebrates two Harveian anniversaries, his birth in 1578 and the publication of *De motu cordis* a half century later. The illustrations on the front and back cover are from the copy of Harvey's *magnum opus* in the Clendening history of medicine collection at the University of Kansas, thought to be one of the few heavy paper editions in existence.

We gratefully acknowledge the contributions of the Medical School, University of Kansas.
